Synthesizing Biodiversity

Virtual Meetings

Photo by Keith Holmes

This is a continuation of talks begun in June 2020 which continued through November 2020. Scheduling for continuing talks in 2021 will be found here. The 2020 session recordings can be found here.

2021 sessions:

January 22: Ben Millard-Martin - [Detection errors: How do they happen? What can we do about them?](#)
Lecture begins @20:00 after a round of reintroductions.

January 29: Alyssa Gehman - [Benthic biodiversity](#)

February 5: Matt Whalen – *talk had to be postponed but there was [some rousing discussion](#)*
